

ABA Skill Development Program

What is the ABA Skill Development Program?

This program is offering **free** skills development programming to children/youth diagnosed with Autism Spectrum Disorder using the principles of Applied Behaviour Analysis (ABA). The program will focus on teaching a variety of skills including social, emotional regulation, daily living, and communication based on the needs of the student.

What are some skills that my child might learn in the program?

- Problem Solving
- Self-Regulation
- Functional Communication
- Conversation Skills
- Friendship-Making Skills
- Identifying Feelings

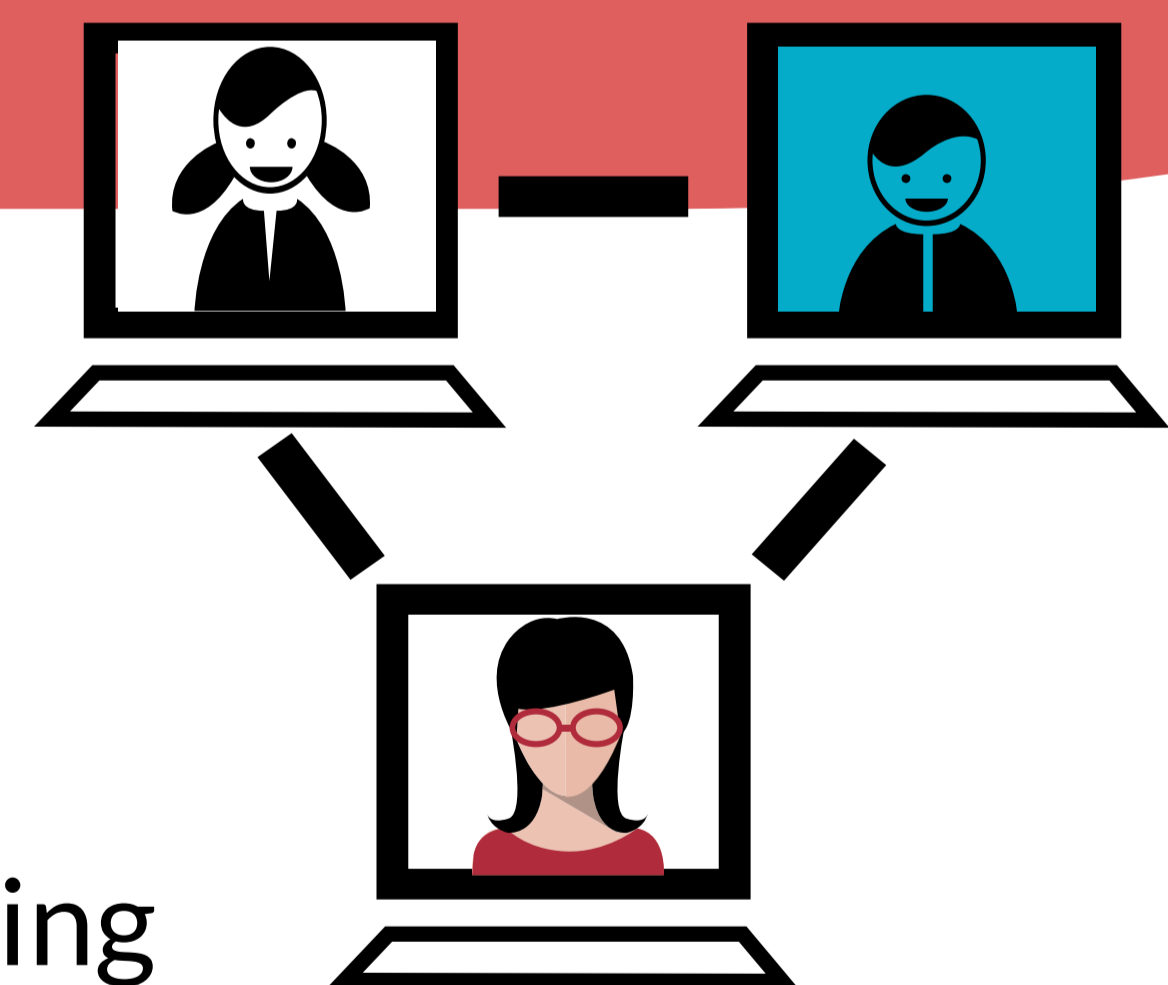

Who can join?

Students diagnosed with Autism Spectrum Disorder, aged 3 to 21, of the Algonquin and Lakeshore Catholic District School Board. Programming will be developed based on age, location and skill. Students who are engaging in both remote learning and in-person learning are eligible to apply to the program.

When and where:

- **In-person groups** will occur weekly during the school day during non-instructional times (recess and nutrition breaks). *In-person groups will only be offered to students in the same cohorts.*
- **Virtual groups** will be offered weekly during various times including during the school day and after school hours.

How do I refer my child/youth?

PDF Application

Fillable Application

Completed application packages can be:

- Sent to their school
- Emailed or faxed to Katie Bremner
