Promoting Positive School  
Climate and Well-being

## Preamble

The ALCDSB is dedicated to creating and promoting positive school climate and well-being in all of our schools. Respecting the dignity of all persons by fostering trusting relationships through policies and practices that promote equity, inclusion and diversity are at the core of our Catholic values, the Board's spiritual theme of *Faith in Action* and our provincial *Catholic Graduate Expectations*. A positive school climate is directly linked to student success and well-being ensuring students are motivated to do well and will realize their full potential. We are committed to sustaining healthy and nurturing communities of belonging that are safe, caring and respectful and built on the principles of restorative practice and progressive discipline.

The ALCDSB and its school communities engage in a whole school approach in putting prevention and intervention strategies in place to facilitate a positive relationship between students, staff, parents and community partners.

## I. Education, Awareness, and Outreach

École catholique Cathédrale proclaims that all people are created in the image and likeness of God and, as such, have the right to be treated with dignity, respect and fairness. The school further recognizes that a whole-school approach to engaging the school community will help the School's efforts to address inappropriate behaviour.

To these ends, the School will utilise the Ministry of Education definition of bullying in communications with the school community. (See page 8)

In its communication efforts, the School will:

- Make known that a positive school climate is essential for student achievement and well-being
- Identify the factors that contribute to a safe, inclusive caring and accepting school climate.
- Support relationship building and focus on promoting healthy relationships using a variety of strategies
- Educate parents and students regarding the differences between bullying, conflict, aggression and teasing
- Explore and identify the underlying factors that contribute to conflict and/or bullying
- Work in partnership with parents and the broader school community to build awareness about the resources and pathways available.
- Be responsive to parental concerns and continue to build relationships and resiliency.

École catholique Cathédrale will communicate and share with the school community, policies and procedures including the Board/school Code of Conduct, equity and inclusive education policy and guidelines for religious accommodations, procedures to address incidents of discrimination, progressive discipline approach, and promoting positive school climate and well-being.”

1. The School will endeavour to increase education, awareness and outreach by using the following best practices:

  - Religious and Family Life Education curriculum focused on building relationships;
  - Promotion of community supports for students, staff and families when need arises;
  - Embracing and promoting our mission to learn, think and act guided by the love, justice and humility of Christ.
  
2. The School has identified the following strategies to engage parents in conversations about promoting a positive school climate:

  - Presentations to School Council on bullying prevention and positive school climate;
  - The involvement of School Council in the planning process for the School Improvement Plan including wellness goals.

## II. Evaluation of Evidence

École catholique Cathédrale recognizes that effective prevention strategies must be evidence-based.

The School will base its interventions, strategies, practices and programs on evidence from the school climate surveys and other relevant information. The school will take the following steps to assess prevention initiatives and strategies:

- Evaluate the evidence to determine the main areas of concern, and identify issues in the physical environment, determine current procedures, and assess the strategies in place based on results of the school climate surveys and other relevant information.

- Identify children and youth involved in bullying (including the bully, the person being bullied, and those who may have witnessed or been affected by the bullying). The School will consider using a risk assessment approach in this process.
- Review and update the School's strategies as a result of gathering new information.
- Share the updated strategies with the school community.

### **Pre-evaluation strategy**

1. The School's main issues of concern raised by students, staff and parents in the school climate surveys and based on other relevant information are the following:
  - Ensuring that students can report incidents of bullying safely and in a way that minimizes the possibility of reprisal;
  - Increase sense of belonging;
  - Promote both mental and physical health and well-being;
2. The School's areas of focus with respect to the physical environment are:
  - Ensuring supervision of students inside the school and on school property;
  - Work with all community members to evaluate the school yard in order to offer a variety of areas for play.

  - Parents are also encouraged to contact their child's teacher, or school Principal to report issues that may be affecting their child from feeling safe.
4. Based on a review of the school climate survey results and other relevant information, the following areas have shown success/improvement:
  - There is a high level of optimism, happiness and self-esteem among the school population.
  - Students report strong relationships with peers and adults at the school.
  - Students believe that teachers hold high expectations for success for them.
  - Students are interested and motivated to learn.

- There is a very low incidence of cyber and physical bullying at the school.
5. Based on the school climate survey and other relevant data, the School proposes the following action plan to address areas requiring improvement:
- More explicit instruction around physical and mental health and wellness.
  - Create student-led groups to promote kindness and positive behaviours.
  - Promote school-wide initiatives to build community and belonging.
  - The integration of community based support staff into our learning and social experiences for our students and their families. Make sure we know how to connect people in need with the right agency

### **Post-evaluation Strategy**

The School will reassess the results of subsequent school climate surveys to verify the efficacy of the positive initiatives implemented. The “post-evaluation phase gathers evidence to test the efficacy of the prevention, responses, interventions or supports provided in order for changes to be made, where necessary.”

Upon re-evaluation, the School will update the information in this template to reflect the effectiveness of its bullying prevention initiatives.
